Dear Frank:

Thanks for inviting me by telephone and subsequently through your letter of October 2, 1991 to attend the Workshop on Verified Warhead Storage and Dismantlement on the 18th and 19th of October. On review of my schedule it now appears that I definitely can not attend. I am impressed by the high level of the Soviet delegation and I am wondering how, from the Soviet or Russian point of view, this meeting will be interpreted in reference to the official contacts that have been initiated following the President's speech. At any rate I am pleased that warhead dismantlement has now entered the official arms control agenda.

I am sorry I cannot join you.

With best personal regards,

Wolfgang K. H. Panofsky
